2024/2474/P	David Millett and Gillian Morris	04/09/2024 14:29:19	AMEND	<p>We occupy the house immediately next to that in respect of which the application is made. There is a considerable slope between our house and that in respect of which the application is made. That being so, we share the view of the Heath and Hampstead Society that a basement impact assessment should be conducted and an amended application submitted which includes a report of that assessment before any decision is made.</p> <p>We are concerned about disruption to our occupation of our property and, in the event of any application being granted in respect of the applicants' property, we would ask that restrictions on the hours of work should be imposed and all unnecessary noise should be avoided. We are also concerned about the general impact on the fabric of our property and ask that measures be taken to protect against any such impact.</p> <p>We trust that the applicants have been made fully aware by their professional advisers of their obligations under the party wall process.</p>
