Subject: Fwd: Frogal lane garage development/ 2024/1122/P

Hello,

I am a homeowner in the Palace Court building, I live in Flat 15.

I am extremely concerned about the plans regarding the development of the garages next to our building and I would like to express my disagreement with the plans for the following reasons:

-loss of privacy, my daughter's bedroom is facing that space and it is very close

-daylight and sun light reduction - currently there is not enough light, a taller development would impact this even more

- structure stability and ground conditions surrounding such an old building**

I am also appalled by the campaign the developer is making, with so many support letters from people not even living nearby!

Thanks and regards,

Simona
