About your observations

When making your observations please consider the impact the proposals will have on the character and appearance of the conservation area. This will usually be related to physical changes but can include use of buildings. The character and appearance of the conservation area is set out in the conservation area statement it may be useful to refer to it to support your comments.

Please choose one

No objection

Do you have any comments or consider that the proposal is harmful to or does not preserve the character and appearance of the conservation area?

Only comment is the section drg (2024-PL-S-001) shows the proposed conservatory roof starting just under the rear windows & the existing starting lower, on the rear elevation drawing (2024-PL-EL-001) it is the other way round, from the DAS the photos show drg EL-001 is correct. For clarity it is probably better to correct
