2024/2874/P	Shane Rooney	07/09/2024 09:37:19	OBJ	<p>I like I appreciate the nature of seeking to reduce carbon emissions</p> <p>I must register my objections to this application based on concerns relating to breaches of acoustic criteria</p> <p>I am a leaseholder owner of Flat 11 Dennington Hse and directly impacted by this application</p> <p>The acoustic treatment report is inadequate as it does not reference the fact there are 3 separate units planned</p> <p>The application does not indicate the location of the 3 units adequately</p> <p>The proposed screening is in my opinion (as a MCIQB chartered builder) and Surveying professional inadequate</p> <p>It proposes to offer a vertical screen - without defining materials but does not provide a "cap or lid " to the screening - this will simply act as a funnel with vertical escape of noise and impact by exceeding permissible acoustic levels</p> <p>Should more definitive details and clearer acoustic assessments be made to reflect the 3 number units and demonstrate that vertical acoustic break out is considered this may alleviate concerns</p>
