| 2024/3399/P | Jennifer Pape | 11/09/2024 09:48:18 | COMMNT | As a neighbour to the tennis club whose garden directly backs up to the club, we object to the proposal to build a second story on the clubhouse. The club house would directly look into our garden and impact the privacy of our garden. There is already considerable noise from the clubhouse in the summer months and with this proposal of a second story there would be additional levels of noise until late into the night which effects those in our property. The planning description on this application of 'erection of a single story pavilion' is misleading and doesn't align with the drawings submitted that clearly indicate the proposal is to add a second story to the clubhouse. There is ample space at ground level to extend the floor plate of the clubhouse without having to extend upwards. |
| 2024/3399/P | Stephen Pape | 11/09/2024 10:55:23 | COMMNT | I oppose this planning application on the basis of the proposal to build a second story on the clubhouse due to the increased noise resulting from the additional capacity which already goes on well into the night during the summer months. The drawings clearly show the proposal is to add a second level that would be above my garden wall and look directly into the back garden. I would support an amended proposal for a single level clubhouse re-build. |
