I have a number of queries surrounding the above application.

1. The outline plan is not correct our building stretches up to Arlington house there is no ally access to the road.
2. My flat is on the first floor and is directly opposite the gates of the old Camden refuse depot on Arlington Road
3. As a volunteer with feeding the homeless I am not against providing council houses
4. I am concerned that if built to the roadway, a 4/6 story block will take all the light from my flat and I am mainly housebound

Could we see a proper layout of the proposed building and gardens that actually reflects the existing area
