Subject: Tree works 1 Englands Lane, NW3 4YA

Hi

We would like to undertake some works to the three Robinia trees in the front garden of 1 Englands Lane.

Permission was previously granted to reduce the height and volume of these trees ~30% in 2020 (see attached) . We would like to reduce the two trees at the front to a similar level, likely an additional metre below the previous reduction point.

For the third tree we would like to either remove it completely, or reduce it more significantly. It sits very close to the house, (~1m , see photograph attached) and has begun to affect the retaining wall in front of the basement level of the house.

Regards

Stephen Wolff
