2024/3933/T	Francoise Findlay Elsworthy Residents Association BCAAC	18/09/2024 15:32:58	NOBJ	<p>The one immediate "neighbours details" omitted was me at 1 Lower Merton Rise. I have been in correspondence with the various owners of 19 Wadham Gdns for the past 24 years regarding their neglect to pollard the boundary poplars T11-15. They have been causing problems to other neighbours too during all those years of neglect. You will see from the Camden records</p> <p>2010 - 125 King Henry's Rd took off overhanging limbs 2017 - I took off overhanging limb on T15 2019 - 121 King Henry's Rd took off overhanging limb and ivy 2020 - I took off overhanging limb on T15</p> <p>Tom Little visited me in 2019 and confirmed the poplars were dangerously overgrown since original pollarding in 2001 but being on private land, outside of his remit to take action.</p> <p>I am relieved that the new owners have applied to carry out long overdue maintenance on all the trees. I hope that reducing T15 to original pollard points will be sufficient for the tree to no longer present a risk to my own boundary walls and indeed my garden that I have had to relandscape as it was no longer "mediterranean" having lost all sunlight.</p> <p>I would appreciate it if the tree officer viewed the trees from my property when he visits 19 Wadham Gardens. Normally I am trying to save local trees!</p>
