2024/3514/P	T.Gliszczyński	18/09/2024 10:51:30	OBJ	<p>I wish to object to this application.</p> <p>The several white gas boxes stacked up and affixed at high level to the front facade of the building have been a terrible eyesore, fitted with no concern for the preservation of the building or the Conservation Area. They are reminiscent of the worst house conversions of the past decades.</p> <p>I believe there are other methods of fitting gas meters in this building without the need for defacing the building or the street, particularly these days with compact 'smart' gas meters which are read remotely.</p>
