Month

January
---------

Year

1980
------

(Date must be pre-application submission)

Please provide a brief description of the building or part of the building you are proposing to demolish

The cubic metres of existing walls we propose to demolish include: a) the volume of stud walls built between the late XX-century and 2010 (1980 is an indicative date) to create the existing bathroom and bathroom lobby, and the wall hiding the northern side of the living room chimney breast, which amounts to approximately 1.6 cubic metres in total; b) approximately 0.2 cubic metres (0.6x0.15x2.5m portion) of the wall between the stairs and bedroom which may have been original and is non-load bearing.  
The uploaded drawings and statement indicate the materials, windows and other items we propose to replace.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The proposed demolition works would allow the flat to regain an internal layout with regularly-shaped rooms. A standard UK double bed adequately surrounded by circulation space would fit in its only bedroom, and the bathroom would be more comfortable, functional and suitable for a 2-person flat.
