Details of the pre-application advice received

The report concluded:

- Officers have no objection to the principle of the single-story rear extension, however, the preference is for this to be brick as opposed to render. A green roof should be incorporated,
- Officers are not supportive of the principle of the side dormer. However, a side dormer was granted at 75 Lawn Road in 2020 (reference 2018/2136/P) after some design variations were carried out.
- Officers have no objection to the principle of a rear dormer, however, it should be smaller, and the detailing improved
- Officers have no objection to the principle of the proposed outbuilding.
- Rooflights to the front elevation would be visible from Lawn Road and would not be acceptable.
- Officers are supportive of the principle of PV panels on the side elevation only.
- Officers have concerns with the proposed insulation covered with brick slips. If you apply for planning permission for this element of the works you should provide detailed sections to show how an eaves overhang would be retained.
- The officers have no objection to other described works.

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
