**Subject: 13 Belsize Crescent - 2024/3790/T**

**Dear Planning Team,**

**I am writing in relation to the ongoing consultation for application 2024/3790/T and would like to emphasise the importance of upholding the conditions set forth during the approval of 2023/0692/P, particularly regarding the protection of mature trees.**

**In your briefing pack for 2024/3790/T, specifically on page 11, it is noted that "Mature trees are to be retained, with specific protection measures enforced as a condition."**

**It is disappointing to see that the property owners are now seeking permission to remove the very trees they previously committed to preserving, especially so soon after securing approval under 2023/0692/P. I sincerely hope that Camden Council will remain vigilant in its duty to protect the interests of the community and ensure that established planning conditions are respected.**

**Best regards,**

**Elodie**
