2024/3805/P	Eric & Sandra Deakins	03/10/2024 12:43:08	APP	<p>We have just received a note through the door from the applicants surveyor asking us if we had concerns about the building work and party walls.</p> <p>While we do not wish to make any difficulties for a neighbour as long as there is no adverse effect on our property, we were concerned to see after then going to the council website that the application states that the homeowner has discussed the proposed plans with the neighbours on either side of the property who have expressed no concerns with the scheme. This is not accurate. The first we heard about this was from the Surveyors in the last week.</p> <p>The property is also stated to be terraced but is not joined to our property.</p> <p>The application also stated that "the properties either side have benefited from a range of developmental changes over the years" This is not accurate, 36 Murray Mews has had no structural changes since it was completed.</p> <p>Regards Sandra & Eric Deakins</p>
