Hi Rav

I've got a client who lives in the Middle East who has a letter from Highways to cut back some trees that are blocking the road signage.

T1: Ash: Cut back lateral spread encroaching Highway signage by 4 meters (clearing signage by 2 meters), crown reduce by 1.5 meters circa:

G2: Bay Group, crown lift by 3 meters, cutting back overhang by 1.5 meters (Clearing signage by 1 meter)

I've attached photos for and a map.

Kind regards
Alex
