Hi Ewan,

I hope this email finds you well. I have just received the same email again from the developer where it continues to include inaccurate and misleading information where he is trying to rally support. Based off of the last conversation on this topic you mentioned this would be addressed with urgency.

Regards,

## Frognal Lane Garages - Last Chance To Have Your Say

# Frognal Lane Garages

Over the summer we have been keeping local residents up to date with progress on the Frognal Lane Garage site.

Thank you for being part of this conversation - the response so far from Camden planning officers is still that they would like to see the site optimised for more development.

This would mean more homes on the site than we, and local residents we have spoken to, feel is appropriate. The feedback is available on the [online project page](#).

The final document to be produced, a basement impact assessment has been completed and is with Camden for review.

The final document to be produced, a basement impact assessment has been completed and is with Camden for review. This, we believe, will demonstrate the two family homes will appropriate for the site.

Below are some of the key policy positions that relate to the scheme as submitted:

## The Proposals
