2024/4098/T	CRASH	08/10/2024 15:14:18	OBJ	CRASH objects to the proposed felling of the pear tree located in the front garden of this property on Goldhurst Terrace. It is said to have a lean to it but no photographic evidence is provided. It could be concluded that the application is tied into the desire to remove vegetation from the front garden due to the recent refusal to convert the front garden to provide off street parking which has now gone to appeal following Camden's welcome refusal of the parking application. Removing the tree may form part of a wider plan to hard-surface the front garden.
