2024/4312/P	rina payne	11/10/2024 16:39:05	INT	<p>Rina Payne, 11 Downside crescent NW3 2AN</p> <p>when the extension went up next door, at num 9 D C , I was dismay at the huge building going up and upset at the sharp pointed angle of the 2 roofs, which , of course, block some of my view. my dismay was further arose when a "pergola" was build which extend an already huge extension further than the lines of the back of the buildings along Downside crescent, including mine next-door. The pergola goes beyond the building line and obstruct my view even more. It is , too, an eyesore, adding length to an already gigantic extension.</p> <p>It is equally dreadful that it is built with sharp peak beans, adding further ugly angles to the gigantic BROWN , peak roofs .</p> <p>I strongly oppose the 2 pergolas.</p>
