Description
Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)
Following a suspected gas leak, the gas supply to Flats 2-3 & 5a, 28 Arkwright Road was switched off to prevent risk to life and property.  Cadent undertook the design appraisal for the repair works to ensure that it resulted in the minimum level of visual intrusion to the building.  Once satisfied that the scheme was the minimal level of intervention and the least harmful solution in providing gas to the residents, works proceeded to reconnect the supply. This application is for retrospective planning permission for the installation of gas pipework to 28 Arkwright Road.

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals. a) Protected and priority species O Yes, on the development site Yes, on land adjacent to or near the proposed development ⊗ No b) Designated sites, important habitats or other biodiversity features Yes, on the development site Yes, on land adjacent to or near the proposed development c) Features of geological conservation importance O Yes, on the development site Yes, on land adjacent to or near the proposed development ⊗ No Supporting information requirements Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal. Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted. Your local planning authority will be able to advise on the content of any assessments that may be required. Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development. Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required. Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply? O Yes ⊗ No Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one
Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold)  What best describes the size of your site?: Please justify the reason why biodiversity net gain does not apply: de minimis  Note: Please read the help text for further information why developments may be exempt or not in scope.

The removal of the existing riser is considered acceptable, but the removal should be made good in materials to match existing. It is considered due to the nature of the works, there will be no residential amenity impacts with regards to loss of light, outlook, or privacy. It is considered the proposed development for the additional gas supply including pipework and a meter box may be acceptable subject to further information relating to the pipework and meter boxes as outlined above. Listed building consent would be required for the works and a formal application should be submitted prior to works starting. **Authority Employee/Member** With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
