[EXTERNAL EMAIL] Beware – This email originated outside Camden Council and may be malicious Please take extra care with any links, attachments, requests to take action or for you to verify your password etc.

Dear Sir or Madam,

I am writing in support of planning application 2024/3342/P.

The application is relating to the upgrade of existing radio equipment, and I do not believe objections based upon location or presence within the conservation area hold much weight considering current site usage. Furthermore, the building which would host the equipment is modern, and so it would not be unfitting to the area.

Investment in radio telecommunications equipment is essential to digital connectivity, powering economic growth and opportunity for the public and businesses within Camden. The public amenity is significant.

I am a frequent visitor to the area and am directly impacted by the proposals. Please redact my address from any public publication to protect my individual privacy.

Kind regards,
James
