2024/4574/P	Michael Lowndes	24/10/2024 11:37:03	COMMNT	The proposed faceted sheer gable ends of the roof extension are visually uncomfortable and obtrusive. The appearance of the mansard would be benefit from being hipped at both ends (the hips could include dormers). The rhythm of the of the roof form would also benefit from the insertion of 'party wall' upstands consistent with the plot pattern.
