2024/4642/P	Billy J Byatt	26/10/2024 18:31:27	OBJ	<p>Objection: while this work may be an improvement to current operations, there is no traffic mitigation plan provided for the construction. The new development will need to show there is no negative impact upon either Pond Street or upon Fleet Road. If this can be managed from the access roads behind the Royal Free this will be the preferred method. Until such a traffic impact and mitigation strategy is provided the local residents will be understandably nervous of such a large scheme impacting South End Green and related areas.</p>
