Biodiversity net gain
Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.
This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.
Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:
☑ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply
*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Details of the pre-application advice received
Ground floor alterations; demolition of existing extension to rear and enlarged replacement positioned on the north boundary. First floor alterations; increase in height of existing first floor closet wing, and proposed new first floor infill extension.
The proposed alteration to the ground floor, i.e.) demolition of existing extension and re-positioning and enlargement is broadly acceptable, subject to detailed design and suitable materials. I would note some concern about the amount of glazing shown on the drawings, however given this is to the rear and out of sight from the public realm, this could be ok as it is. I would also note that timber framed fenestration would be advised, and certainly not UPVC. The sedum roof covering would help mitigate any loss of biodiversity and would be welcomed, also for minor flood mitigation contribution it would provide.
The proposed alteration to the existing first floor closet wing (increase in height) is acceptable, provided the roof slope angle would match the existing, and importantly that of the neighbouring properties along the terrace of nos. 36-42. Where existing materials can be reused this should be done, for example the roof tiles.
The proposed infill extension at first floor is also considered acceptable in this particular instance (again the slope of the roof is an important element of the design and timber framed sash windows to match existing is welcomed). As discussed on site, the existing terrace arrangement is somewhat odd, with overlooking issues arising from the existing terrace toward the neighbouring school. Given the proposed details here would closely match the existing in terms of design, scale and materials and it would resolve overlooking issues, I would expect top recommend approval. If the Sedum roof covering could be incorporated/ extended to the 'left over' area of flat roof, this would also be welcomed.

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply? ○ Yes ⊙ No
Ownership Certificates and Agricultural Land Declaration
Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)
Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.
Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days? Yes No
Is any of the land to which the application relates part of an Agricultural Holding? ○ Yes ⊙ No
Certificate Of Ownership - Certificate A
I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**
* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.
** "agricultural holding" has the meaning given by reference to the definition of "agricultural tenant" in section 65(8) of the Act.
NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
