

Vertical Bike Rack Information Sheet

Vertical Bike Rack

The Vertical Bike Rack makes fantastic use of any free wall space, dramatically reducing the footprint required to store bikes.

Offering an economical yet effective bike storage solution, the Vertical Bike Rack supports the bike by the front tyre to mitigate the risk of strain or damage to the bicycle.

Needing just 305mm between racks, this product enables high-density storage at a cost-effective rate. Provide your site users with convenient cycle storage at a great price, ideal for bike stores with limited space.
