

Dear Planning Team

Further to my earlier comment in response to the project team's assertion that they are not aware of any construction activity near 13 Belsize Crescent (2023/0692/P), and given everyone's apparent aversion to site visits, I would like to submit the following photos (all taken from within 50m of the site) as evidence of the current state of affair on the street.

Corner of Belsize Lane and Belsize Crescent (Crescent Fruiterers)

4 Belsize Crescent (Belsize Dental Care)

5 Belsize Crescent & suspended parking bay at 13 Belsize Crescent

20 Belsize Crescent

27 Belsize Crescent

Whilst all of the above are in extremely close proximity 13 Belsize Crescent, we have already established that all of these construction sites fall outside of the very small area reached by the project team for the purpose of the CMP consultation...

Hopefully, this once again serves to demonstrate the inadequacy of the CMP consultation. It also illustrates the local residents' concerns in relation to construction traffic.

On this last point, a second independent report has been commissioned to provide additional traffic analytics. It will be forwarded to the Council at the earliest opportunity (hopefully in the second half of November).

Kind regards

Jean-Sebastien Pelland
