Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <a href="Paragraph 13">Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)</a> ) would apply?  O Yes
⊙ No
Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u> : "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

Please add all the reasons why biodiversity net gain does not	apply and enter a justification for each one
Reason biodiversity net gain does not apply:	
Development subject to the de minimis exemption (develop	ment below the threshold)
What best describes the size of your site?: Over 25 square metres	
Please justify the reason why biodiversity net gain does	s not apply:
Providing ASHP on site. No chnge to the context of the buil	ding or surrounding surface treatment.
Note: Please read the help text for further information why dev	elopments may be exempt or not in scope.
