

# TRANSPORT FOR LONDON

## Shelter Advertising Proposal

### TECHNICAL SPECIFICATION

JCDecaux

# TfL London Landmark Shelter With *DynaScan* Outdoor LCD Screen

# TfL London Landmark Shelter LCD Outdoor Screen Attributes

## Presentation

- Digital display in Forum design.
- Product specially designed for direct outdoor use in a wide range of environmental/temperature conditions and features.

## GENERAL PRODUCT INFORMATION

### Performance

- Excellent contrast and quality of image.
- Displays great quality fix images and video, thanks to its resolution 3840 x 2160 4K.
- Brightness up to 2500Cdm<sup>2</sup>, the best performance available in the market for an LCD screen.

### Robustness and Durability

- Product specially designed for direct outdoor use in a wide range of environmental/temperature conditions and features.
- Brightness level not affected by extreme temperatures and does not degrade over time like other technologies.
- Best in class product in term of visibility in direct sunshine. Improved reliability and life through expert thermal and solar management design.
- Bumpers option to protect the furniture.

### Certifications

CE

### Manageability

- Extensive monitoring capability through digital image verification that gives immediate feedback about display performance.
- Intelligent monitoring/control and maintenance features.

### Modularity

- Available in Forum and iVision designs.
- Modular design for simple on-site service.

### Vandalism

- Front-face in laminated 8mm tempered glass.
- Furniture opening guaranteed by the use of special keys.
- Screws and fixing gears are invisible.
- Furniture composed of unalterable materials.
- Encrypted transmission between JCDecaux NOC and the digital displays.
- High quality materials and coating.

## LCD Screen Specification

### INSTALLATION

Tested in factory before shipment.

Civil Engineer Approved

Transported full assembled, which minimize actions on site for the installation.

### SUSTAINABLE DEVELOPMENT

Power efficient: Lower power consumption thanks to dynamic dimming approximately 30-40% less. Minimizes the impact on the environment. Digital furniture mainly integrated by long life and recyclable materials.

### SCREEN

Technology	LCD Screens
Pitch	0.831mm(V) x 0.831mm(H)
Resolution	3840 x 2160 at full HD
Brightness	Max 2500Cdm <sup>2</sup> Auto adjust to ambient levels
Angle of Visibility Horizontal	178°
Angle of Visibility Vertical	178°
Display color	72%
Backlight technology	White LED
Number of colors	16.7 Million

### OPERATING CONDITIONS

Temperature	-20° c/+50° c
Humidity	20%-90%
Screen orientation	Portrait
Other	Direct sunlight

### LIFESPAN

Lifespan Typical	10 years
Daily maximum operating time	24h

### ELECTRICITY

Input Voltage	230v
Max Power	2315W
Average Consumption	24.14kHw based on 15% nighttime and 55% daytime brightness

### WEIGHT & DIMENSIONS

Global	1338 (W) x 2100 (H) x 245 (D) mm
Visible	1096 (W) x 1920 (H) 2188 diagonal)
Visible area	2.1m <sup>2</sup>
Screen aspect ratio	16/9
Weight	approx 500kg

### CERTIFICATES

Certifications	CE, RoHS, EN 62368-1, IEC 60950-22
----------------	------------------------------------

### COMMENTS

The Screen is best in class in terms of visibility in full sunshine. The technology includes the latest features to lower TCO through:

- Improved reliability and life span through expert thermal and solar management design
- Modular design
- Replaceable 9mm front glass
- Extensive monitoring capability via digital management verification on display performance and function
- Capable of showing static and dynamic content in sequence

# Shelter Configuration

## Mark One / 3 Bay

### Advertised Shelter

Mk1 cantilever shelter, three bay unit, comprising:  
fully glazed half end screen  
fully glazed panel with priority perch seat with arm  
info panel with QR display and rest seat  
fully glazed panel  
double sided illuminated six sheet advertising display replacing end screen

Quad royal display on reverse of info panel

Construction:  
Mild steel framework and cladding: silver grey/  
optional stainless steel  
GRP roof: dark grey  
Mild steel roof interior ceiling: light grey  
GRP seat: red/ other seat colours available to  
match transport modes

Glazing panel options: refer to 2.1  
Seating options: refer to 3.1

## Sustainable Design Sustainable Principals in Practice

Sustainability is a core principle for JCDecaux. We strive to create a balance between its business growth and social and environmental responsibilities. The twin pillars of innovation and sustainability drive the business forward and influence every project we undertake.

JCDecaux have recently been commended for its leading approach by achieving a place on the CDP's prestigious 'A-List' for climate change action.

**Our business** is backed  
by electricity generated  
from renewable  
sources

We certify that

**JCDecaux UK Limited**

Has 100% of its electricity generated in  
the UK from clean renewable sources,  
wind, solar and/or hydro.

**All Sites**

**01/01/2025 - 31/12/2025**

Matt Nunn  
Director of EDF Business Solutions

**Clean Renewable**

All source certification meets GHG Protocol Scope 2 Guidance Quality Criteria. This is not a REGO certificate. REGO certificates are held by energy suppliers for Fuel Mix Disclosure. The zero carbon electricity that we buy for Zero Carbon or Renewable tariffs and products is supplied into the National Grid. Customers receive that electricity through the National Grid, not directly from zero carbon generators.\*

## OUT-OF-HOME: THE SUSTAINABLE PUBLIC SCREEN

As JCDecaux invests in energy-efficient solutions reducing our carbon footprint still further, Out-of-Home is a sustainable, trusted medium that reaches the audiences our partners need – a medium that gives back to the community by providing valuable public amenities including bus shelters and life-saving defibrillators paid for by advertising. #PowerofthePublicScreen

### OUR ESG VISION

Find the [Sustainable Media 2030 Vision](#) brochure on our website

- Towards more sustainable living spaces
- Towards an optimised environmental footprint
- Towards a responsible business environment

### OUR ESG PERFORMANCE

Global validation & UK partnerships

- RE100 – 100% renewable energy worldwide
- FTSE4Good – 3.6/5 rated
- CDP - A List
- Ecovadis - Gold
- MSCI – AA Rated

- Pledge To Net Zero
- Certified by Planet Mark
- Members of Ad Net Zero
- ISO 45001 (Health & safety)
- ISO 14001 (Environment)
- ISO 50001 (Energy)

### OUR PURPOSE

Creating Real Value through the Power of the Public Screen

- One Team
- Minds Matter
- Difference Matters
- Community Channel

### KEY THINGS TO KNOW

"Out-of-Home is a public, one-to-many medium, efficiently reaching an audience of millions with a relatively small number of displays. Digital Out-of-Home represents just 0.03% of the UK's 100 million digital screens."

(Source: The Drum/Clear Channel estimate)

"Out-of-Home represents a fragment of the UK's total energy usage. The UK's OOH sector accounts for less than 0.04% of the UK's total energy usage."

(Source: BEIS Report 2020)
