2024/4426/P	Dr S Vijayaraghavan FRCP	06/11/2024 10:16:04	OBJ	<p>I object very strongly to the proposed roof extension for 10 Pratt Mews. I am the joint owner/resident of Flat 3 Regent House which sits across the Mews from the proposed build.</p> <p>The Daylight and Sunlight Report commissioned by the applicant very clearly states on Page 2, section 1.1.6 that the proposed build will be NON-COMPLIANT in respect of windows 61 and 62 at Regents House - that is my apartment. I disagree with the conclusion that "the proposed development is acceptable in terms of daylight and sunlight."</p> <p>Access to sunlight and daylight is an essential aspect of one's wellbeing and it is something citizens are entitled to. Lack of sunlight directly impacts on physical wellbeing (Vitamin D deprivation) and mental wellbeing (seasonal affective disorder is something a member of my family suffers from).</p> <p>I do not agree that our access to daylight and sunlight should be curtailed and my family's wellbeing be compromised to suit a neighbour's desire to add a roof extension for commercial purposes. I object to this application in the strongest possible terms and urge the Council authorities to decline this.</p>
