

Adapt existing dormer using structural steelwork to allow for sufficient loading.

Proposed new balustrading to be 1100mm (h) and not breach existing roof ridge ensuring no visual impact on street scene.

Increased size of dormer to be built out in line building below.

Glazed panels to match existing design.

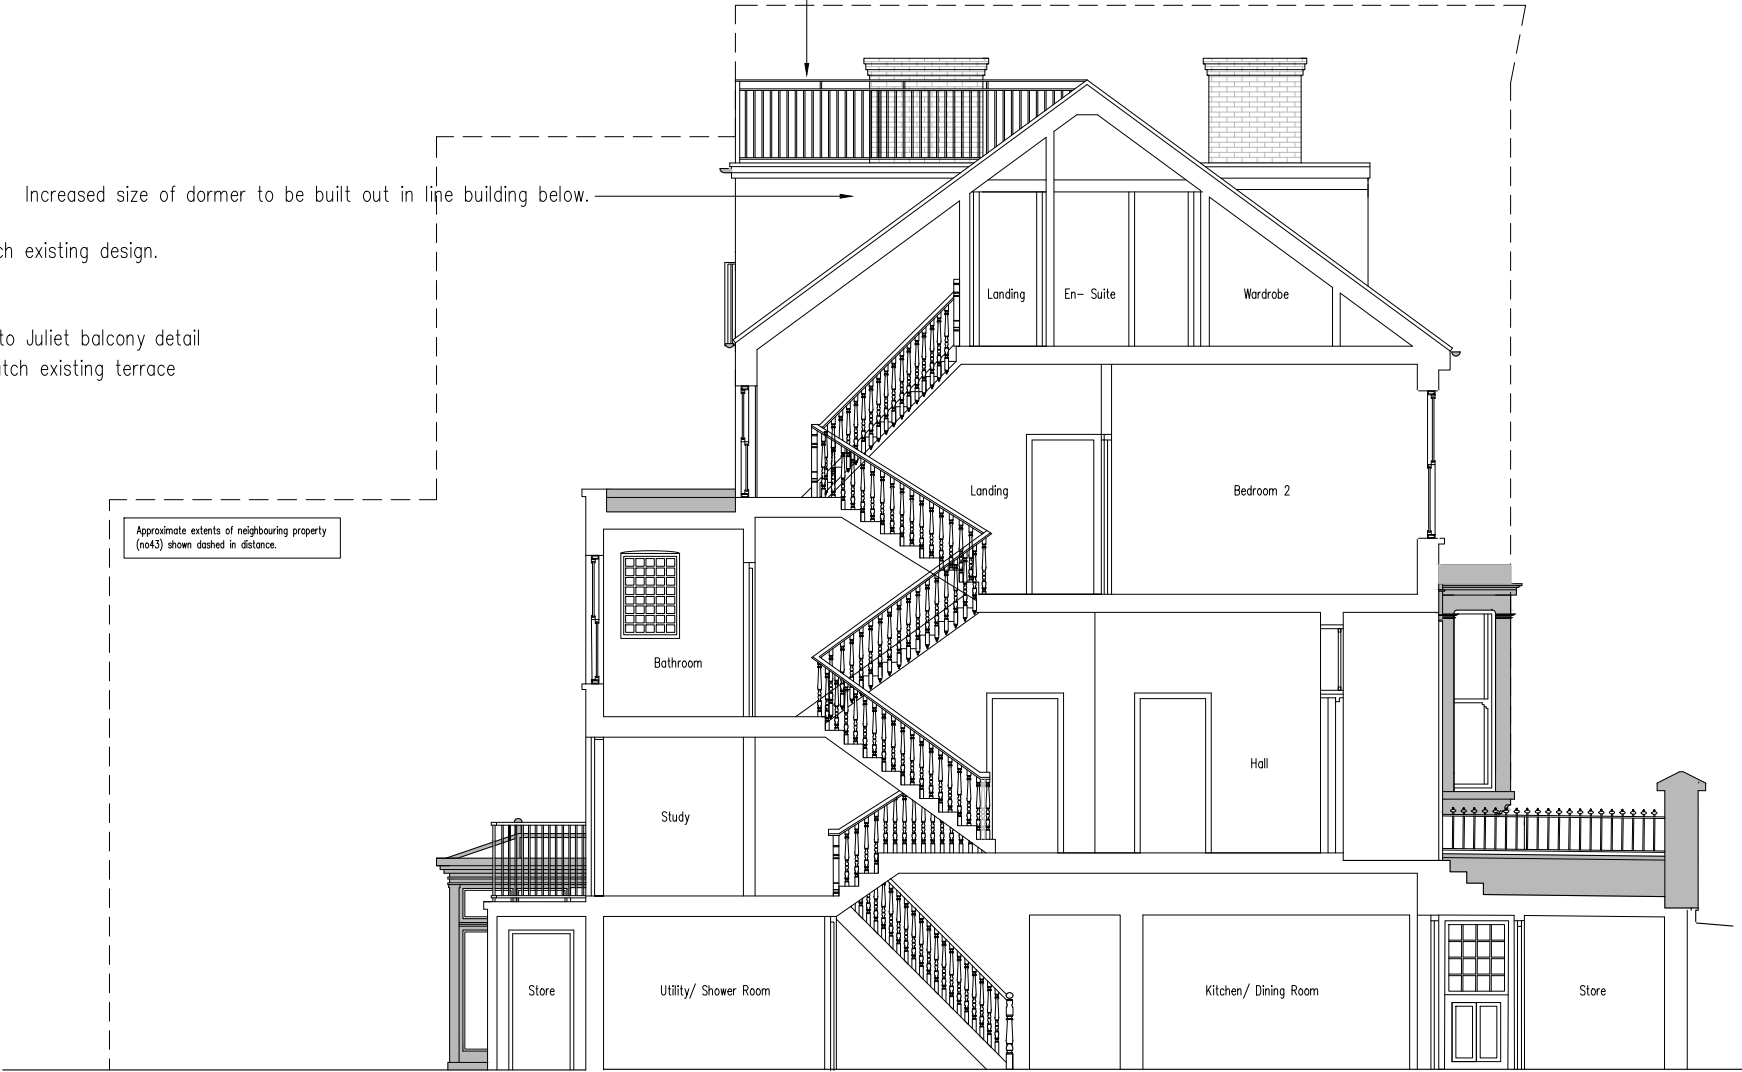

2no doors opening onto Juliet balcony detail in wrought iron to match existing terrace balustrading.

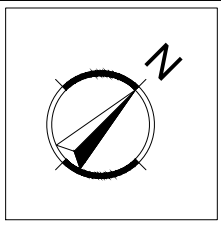

Rear Elevation (North West)

Proposed new balustrading to be 1100mm (h) and not breach existing roof ridge ensuring no visual impact on street scene.

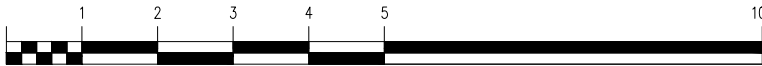

Approximate extents of neighbouring property (not shown) shown dashed in distance.

Side Section (South West)
