| 2024/4384/P            | C Chia-Llewelyn         | 10/11/2024 10:03:33 | COMMNT          | <p>I am one of the residents of Bristol House. The air- conditioning units installed by Gourmet Sushi are very close to the windows of the units on our side of the building and are noisy. Their own noise report states that the noise from these units exceed the local authority criteria.</p> <p>The noise and location of the units particularly affects the ground floor unit which is providing therapy services and requires a quiet and serene environment. They also affect the residents of Bristol House who work from home and the elderly who are at home most of the day. The units need to comply with legal requirements and should not be on after work hours.</p> |
