PRIMROSE HILL CONSERVATION AREA ADVISORY COMMITTEE
12A Manley Street, London NW1 8LT

06 November 2024

Camden Incline Winding House Gloucester Avenue NW1 8## 2024/4381/HS2

No objection.

We welcome the recognition of the international importance of the winding house as a rare and mostly intact surviving feature of the first of all modern main line railways to London (4.6.3). We also welcome the reduction in the number of 100mm core samples from 36 to 9 (6.1.3)

We request the establishment of a feedback process to keep local communities, including the PHCAAC, informed of the progress of both the surveys, the outcomes, and the tunnelling itself.

Richard Simpson FSA,
Chair PHCAAC.
