Please provide a brief description of the building or part of the building you are proposing to demolish

Removal of internal staircase linking ground floor and basement, installed circa 1986 under planning application number: 8670083

Partial removal of cast iron railings within the curtilage of the site boundary local to where new access is proposed.

Removal of non heritage "lean to" roof canopy and door at basement level front entrance.

Removal of patio doors to existing rear extension built circa 2006 under planning application number: 2006/1254/P Render to brickwork and lintel over to be retained and made good.

Removal of "Jack and Jill" bathroom and enclosing stud walls at second floor level, installed circa 2014 under planning application number: 2014/4290/l

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

Removal of internal staircase linking ground floor and basement to form proposed 1x one bed two person self contained flat at basement level with self contained 3 bed six person family home to the floors above. New staircase proposed from street level, King's Cross Road, providing for dedicated private access into the proposed self contained flat at lower ground basement level. This arrangement allows for the main front entrance and principal entrance hall of 61 King's Cross Road to remain unchanged and provides for a self contained 3 bed 6 person family maisonette.

Notably, previous planning application number: 2004/4497/P was granted Full Planning Permission by Camden Council (approved by Claire Forster-Pratt, Planning Officer) which included a new stair to be installed in the same arrangement to the new stair proposed in this application leading from the front entrance on King's Cross Road public footpath.

Partial removal of cast iron railings within the curtilage of the site boundary where new access is proposed. Heritage style gated access proposed in keeping with the existing cast iron railings, providing a security threshold for the residents of proposed basement Flat 61A.

Removal of non heritage "lean to" roof canopy and door at basement level entrance. To allow for good access and egress from the proposed staircase into Flat 61A front entrance area.

Where patio doors are removed to existing rear extension, new proposed window to be fitted to match existing fenestrations at the rear elevation. Render to brickwork and lintel over to be retained and made good where required. A heritage style window in keeping with the original building's architecture will serve well for the language of the building and provide a practical function for the space usage as bathroom of proposed Flat 61A.

At second floor level, "Jack and Jill" bathroom and enclosing stud walls proposed to be removed to form private bedrooms with period features reinstated to cornices and skirting.

Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain
Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <u>Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)</u>) would apply?
○ Yes ⊙ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope. If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption). You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one Reason biodiversity net gain does not apply: Development subject to the de minimis exemption (development below the threshold) What best describes the size of your site?: Over 25 square metres Please justify the reason why biodiversity net gain does not apply: A development that does not impact a priority habitat and impacts. Note: Please read the help text for further information why developments may be exempt or not in scope. Change of use from C3 (Dwellinghouses) to C1 (Hotels) advised likely to be refused in principle. There is a policy (policy H3) in the Camden Local Plan 2017 which seeks to resist the loss of housing unless there are special circumstances, and this policy is supported by the London Plan and National Planning Policy Framework both of which state that more houses are needed and existing housing needs to be protected.

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
