

Technical Datasheet

Wildflower Species for M-Tray®

The Wildflower M-Tray® modules feature a mix of sedum for base cover, complemented by a variety of low-growing, perennial wildflower species that are dry-tolerant and suitable for substrate depths of 100mm.

These wildflowers, which can grow up to approximately 50cm, attract bees and butterflies. They include a broad range of native and wild-origin flowering species and grasses to maximize diversity and minimize dead vegetation at summer's end.

Wildflowers often take 2-3 years to fully germinate and bloom, with some only viable as annuals or biennials, so occasional reseedling is recommended.

Armeria Maritima

Thrift

Approx. height: 25cm

Flowering Period: May to September

Bellis Perennis

Common Daisy

Approx. height: 25cm

Flowering Period: May to July

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Fragia Vesca

Wild Strawberry

Approx. height: 5cm

Flowering period: Summer

Anthyllis Vulneraria

Kidney Vetch

Approx. height: 30cm

Flowering period: June to September

Viola Tricolor

Wild Pansy

Approx height: 20cm

Flowering Period: May to October

Thymus Polytrichus

Thyme

Approx. height: 15mm

Flowering period: May to September

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Lotus Corniculatus

Birdsfoot Trefoil

Approx. height: 10cm

Flowering period: May to September

Oreganum Vulgare

Wild Majoram

Approx. height: 10cm

Flowering Period: Spring/ Summer

Silene Uniflora

Sea Campion

Approx. height: 10mm

Flowering Period: June to August

Primula Veris

Cowslip

Approx. height: 25cm

Flowering period: March to May

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Prunella Vulgaris

Selfheal

Approx. height: 20cm

Flowering period: June to September

Leontododon Hispidus

Rough Hawkbit

Approx. height: 15-30mm

Flowering period: Late May to October

Succisa Pratensis

Devils-Bit-Scabious

Approx. height: 100cm

Flowering period: July to October

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Erigeron

Fleabane

Approx. height: 25cm

Flowering period: May to October

Myosotis Sylvatica

Woodland Forget-me-not

Approx. height: 12-30cm

Flowering period: April to July

Sedum Acre

Biting Stonecrop

Approx. height: 10mm

Flowering period: June to July

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Chamaemelum Nobile

Roman Chamomile

Approx. height: June to July

Flowering period: 20-30cm

Sedum Hybridum

Sedum Czar's Gold

Approx. height: 10mm

Flowering period: May to August

Sedum Album

White Stonecrop

Approx. height: 10mm

Flowering period: June to August

Wildflower Species for M-Tray® cont'd

Sedum Pullchellum

Sea Star

Approx. height: 10mm

Flowering period: May to July

Sedum Selskianum

'Goldilocks' (true)

Approx. Height: 20cm

Flowering Period: Aug-Sept

Sedum Montanum

Approx. Height: 20cm

Flowering Period: June-August

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Sedum Spurium var. Coccineum

Dragons Blood

Approx. Height: 15cm

Flowering Period: July-Sept

Sedum Reflexum

Rocky Stonecrop

Approx. Height: 30cm

Flowering Period: June-Aug

Sedum Sexangulare

Tasteless Stonecrop

Approx. Height: 8cm

Flowering Period: July-Aug

Sedum Floriferum

Weihenstephaner Gold'

Approx. Height: 10cm

Flowering Period: July-Aug

Technical Datasheet

Wildflower Species for M-Tray® cont'd

Sedum Montanum ssp Orientale

Approx. Height: 20cm

Flowering Period: June to August

Sedum Middendorffianum var.

Middendorffianum

Middendorfs Stonecrop

Approx. Height: 25cm

Flowering Period: July to September
