Ref to planning application of 10 Albert Street NW1 7NZ,

I was under the impression that the 10% allowed for extension was used when they did a downstairs extension in the back of the building about 10 years ago.

Being a neighbour i have to say that building upwards will take away the uniqueness of the 6 houses that are built from 8 - 18 albert street. its not really in keeping with the neighbouring houses.

Also, it will take away light from both neighbours on 8 Albert St & 12 Albert St, plus there is a tree that is very close to the property that may be affected or may affect the building in question.

Many thanks!  
Chris
