2024/4642/P	Katrin Brinkmann	21/11/2024 17:34:56	COMMNT	Whilst I am generally supportive of this I strongly object to the proposal if the existing traffic problems caused by taking away the car park when building the pears building are not addressed. We are residents of Hampstead hill gardens and the traffic is on our road is horrendous. I had plenty of heartbreaking talks with relatives waiting for their loved ones treated at the royal free and having no idea where to park. I gave them my permits to help but it shouldn't be up to residents to create parking schemes for hospital buildings. Not to mention the constant pollution from all the cars parking on Hampstead Hill Gardens whilst the engine isn't switched off. Please come up with an improved proposal to manage the traffic volume. That would be greatly appreciated
