2024/4625/P	Joanne Scott	25/11/2024 21:21:12	OBJ	I object to this planning application. The proposed loft extension is too bulky and will harm the streetscape. If the application 2024/4626/P is granted, this would be overdevelopment of the property. This proposal is not well designed and will decrease the quality of existing residential units. Contrary to Policy H2 of the London Plan 2021. Adding additional housing units to this property is overdevelopment and the bin storage and any bike storage proposed will not be able to cope with additional occupants. All the fire doors in the building should be reviewed in the event that this development is granted and they should confirm to BS 8214:2016.
