Dear Sir,
Town & Country Planning Act 1990
Planning (Listed Building and Conservation Areas) Act 1990.
Re: 99a Camden Mews, London NW1

I refer to my recent inspection of the above property to check compliance with the planning permission for a roof extension (Ref: 2023/1409/P) and recent correspondence between us.

As discussed the Council considers that there are some minor discrepancies between the as built extension and the approved drawings, specifically the sides of the extension are not shown as reaching the boundary of the site, the rear appears to come out a little further than approved and the overall height is 100mm higher.

My purpose in writing to you is to request that you make a non-material amendment to the above application showing the roof extension has built.

If you wish to discuss this matter please contact me by email or on [REDACTED]

Yours faithfully

[REDACTED]
