

I am objecting to the above applications on the grounds that:

1. The neon signage will create light pollution and is not in keeping with the local traditions and policy for signage.
2. The opening hours operated for the last 15 or more years involved residents in unwanted night time noise - i was woken every morning by the cafe tables and chairs being put out on the pavement at crack of dawn and there were always delivery vehicles etc before the cafe opened etc. The proposal for there to be no limit on hours of use of the premises would only increase the noise disturbance and I beg you not to grant this change.

regards
