Good day / To whom it may concern  
Application 2024/4727/P

With respect to the above planning application. Living in the ground floor flat directly alongside 11 Albert terrace mews, I would be directly impacted by any increase in height to the building when I am already struggling for sufficient natural light. I therefore do not agree / object to the raising of the roof level. I live in a conservation area and my understanding was this had some value still; and so while it is so, would politely expect standards to be maintained.

Best Regards
