| Description of the Proposal |

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- Permission In Principle If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- Public Service Infrastructure From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

Description

| Remodelling, refurbishment and extension of the existing building to provide Use Class E commercial and retail space, amenly terraces, a new public route, relocated entrances, cycle parking, servicing and rooftop plant along with associated highway, landscaping and public realm improvements and other associated works.* Has the work or change of use already started? Vehicle Parking

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in <u>Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)</u>) would apply?

Yes

⊗ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in <u>The Environment Act 2021</u>: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

the site does not possess >25m2 of semi-natural habitat

Note: Please read the help text for further information why developments may be exempt or not in scope.

Open and Protected Space

Please note: This question is specific to applications within Greater London.

The Mayor can request relevant information about spatial planning in Greater London under Section 346 of the Greater London Authority Act 1999.

View more information on the collection of this additional data and assistance with providing an accurate response.

Open Space

Will the proposed development result in the loss, gain or change of use of any open space?

Yes

No
