

Dear Mr Wong,

As the new representative of the Belsize Society on planning I am not sure if we have a role in commenting on this GPDO Prior Approval - Part 1 - Class AA or whether it is simply a technical issue to be dealt with by the Planning Dept? I presume if it passes this there will be a full application submitted to which we shall be able to comment?

I note there is no mention of the conservation area status of this building and the application is ticked as not in the conservation area. I would imagine we would object on conservation area grounds.

Regards,

Alan Selwyn

Dear Mr Wong,

I do apologise- Of course I failed to notice this property is NOT within a conservation area (oddly, just this side of the road).

The first paragraph query still applies.

Regards,

Alan
