

Dear Sir/Madam,

I am writing in regards to planning application 2024/4823/P for 13 Flat Lower Ground Floor, Chalcot Gardens, London, NW3 4YB.

The statutory requirement for planning is only for either a site notice or letter and a site notice is not present and no letter has been received.

The planning application was only noticed coincidentally on the Camden Council site when searching for previous planning permission for the same property on 5/12/2024 by other residents. The deadline for comment is 9/12/2024. This does not provide sufficient time for myself and other residents to review the plans and comment.

On that basis, as a directly affected resident, I would like to request that the deadline for the response be extended or the application be invalidated as no notice has been served to residents either on site or by letter.

Kind regards,

Felice Gronstedt

14 Chalcot Gardens, NW3 4YB

Dear Sir/Madam,

I am writing in regard to planning application 2024/4823/P for 13 Flat Lower Ground Floor, Chalcot Gardens, London, NW3 4YB.

The statutory requirement for planning is only for either a site notice or letter (<https://www.camden.gov.uk/documents/d/quest/statement-of-community-involvement-2024-final-1>)

A site notice is not present and no letter has been received.

The planning application was only noticed coincidentally on the Camden Council site when searching for previous planning permission for the same property on 5/12/2024 but the planning application was registered on 12/11/2024. This does not provide sufficient time for myself and other residents to review the plans and comment. I believe the development will affect my privacy and the opportunity to properly review and comment is hence important to me.

On that basis, as a directly affected resident, I would like to request that the deadline for the response be extended or the application be invalidated as no notice has been served to residents either on site or by letter.

Kind regards,

Katy Hessel

The Great Women Artists

Dear Madam/Sir

I am writing in regard to planning application 2024/4823/P for 13 Flat Lower Ground Floor, Chalcot Gardens, London, NW3 4YB.

The statutory requirement for planning is only for either a site notice or letter (<https://www.camden.gov.uk/documents/d/quest/statement-of-community-involvement-2024-final-1>)

A site notice has not been posted and is not present nor has a letter notifying planning application been received to anyone in 14 Chalcot Gardens.

The planning application was only brought to my attention today, by someone who was looking on the Camden Council site when searching for previous planning permission for the same property on 5/12/2024. I am shocked to see this application and that the date deadline for comments is tomorrow 9/12/2024. This does not provide sufficient time for any interested parties to review the plans and comment. As I think the development will affect the privacy of Flat 6, 14 Chalcot Gardens, it is essential that sufficient time is given to us to thoroughly review and comment.

On that basis, as someone who is directly affected, I would like to appeal that the deadline for the response be extended or the application be invalidated as no notice has been served to residents either on site or by letter.

I look forward to hearing from you

Regards,

Ruth Wellin
14 Chalcot Gardens, NW3 4YB
