The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

314-DWG-000 (P2), 314-DWG-609 (P1), 314-DWG-610 (P1), 314-DWG-611 (P1), 314-DWG-612 (P1), 314-DWG-613 (P1)

Design and Access Statement (06/10/2024), Arboricultural Report (04/10/2024)

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 No.72 Albert Street is one of an irregular terrace of 20 houses, dating from 1844-45, and located within Camden Town Conservation Area. The terrace was listed Grade II on 14 May 1974.

The significance of the building includes its architectural design and materials, floorplan, townscape value and its evidential value as a mid-nineteenth century terraced building. The Council has a statutory obligation to preserve or enhance the character and appearance of the conservation area, to which the subject site makes a strongly positive contribution.

The existing pergola is ancillary to the architectural significance of the listed building and does not contribute to either the character or appearance of the conservation area. Therefore the replacement is not considered to harm to the significance of the heritage assets. The scale and design is of similar appearance and overall there is no design or heritage objection to the new structure.

The proposal would preserve the character and appearance of the conservation area overall. It would also preserve the special architectural or historic interest of the listed building. The council has had special regard to the desirability of preserving the character and appearance of the Conservation Area, and the listed building, its setting, and its features of special architectural or historic interest.

The planning history of the site was taken into account when coming to this decision. No objections were received.

As such, the proposal is in general accordance with policies D2 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2021 and National Planning Policy Framework 2023.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with the National Planning Policy Framework. The council publishes its adopted policies online, along with detailed Camden Planning Guidance. It also provides advice on the website for submitting applications and offers a pre-application advice service.
