

Arboricultural Recommendations Excerpt:

Carried out by: Adam Richards of Valley Provincial Limited

Date: 26<sup>th</sup> November 2024

Site address: 79 Fitzjohns Avenue, London NW3 6PD

Tree no.	Species	Work specification	Comments
T006	Common beech	Prune back from the building on northern aspect by 2 metres from branch tips, back to previous pruning points and suitable branch junctions, leaving a finished spread on northern aspect of 4.5 metres	Tree crown is slightly further away from the building than T007 and T008, but the residents would benefit from pruning back works, due to windows that are within a few metres of the northern aspect of the tree crown
T007	Holm oak	Prune back from the building on north-eastern aspect by 1 metre from branch tips, back to previous pruning points and suitable branch junctions, leaving a finished spread on north-eastern aspect of 1.5 metres.	Close proximity to building. Tree crown is heavily reducing light ingress to various windows
T008	European lime (Council owned)	Prune back from the building by 1 metre from branch tips, back to previous pruning points and suitable branch junctions, leaving a finished spread on north-eastern aspect of 1 metre.	Close proximity to building. Tree crown is reducing light ingress to various windows. Council owned and possible caveat for the tree to be maintained by 79 Fitzjohns Avenue
