About your observations

When making your observations please consider the impact the proposals will have on the character and appearance of the conservation area. This will usually be related to physical changes but can include use of buildings. The character and appearance of the conservation area is set out in the conservation area statement it may be useful to refer to it to support your comments.

Please choose one

No objection

Do you have any comments or consider that the proposal is harmful to or does not preserve the character and appearance of the conservation area?

We have no objection to the proposed replacement of existing UPVC windows and doors to the rear elevation at ground floor.

We are concerned about the presence of unsympathetic UPVC windows to the front elevation and upper floors of the rear elevation, which are harmful

to the conservation area. We request that the applicant is asked to considered replacement with sash windows in accordance with the requirements of the conservation area in due course (ie. when the existing have reached end of life).
