| 2024/5502/P | Cllr Linda Chung | 18/12/2024 22:12:34 | COMM | It appears that the application relates to the upgrade and replacement of existing equipment on site. It is also understood that the replacement equipment is of smaller size, which is of advantage to residents who can see the roof of the station. Such residents often have grounds to complain of ugly structures and clutter which spoil the roofscapes of buildings, or a location. Please be mindful to remove any old equipment or debris left after the work is complete. |
