arup.com

This file note relates to the existing planning consent ref Camden: 2022/1320/L and details the documents issued to Network Rail as asset protection enquiry of 18/11/24 & subsequently in advance of the site investigation works.

Required information on the location and depth of site investigation boreholes is included within items 1-4 and 2-1 provided to NR, which is also included within this application to LBC. Item 3-2 & 3-3 contains details of locations and depths of a subsequent utility trench investigation. RAMS for this are to follow when available.

Table 1 List of documents issued to Network Rail in advance of Site Investigation works

#	Document title	Document description	Date issued to Network Rail
