

Application number : **2024/5777/P**
29 Oval Road, London NW1 7EA

Hi!

I was very shocked to see my neighbour plan to make a double extension in their rear. They must have slipped the application in when they saw I was away. One storey would be OK probably, but two would completely cut out my light, and is absolutely not on the table!

Already **25 Oval Road** made a double storey rear extension without my permission years ago, which cut my light a lot.

Then the **Centric Close development** again cut my light, so the plants hardly grow in my back yard. At least they compensated me for my lack of light, which was a bit of a reprieve. Olutayo Ajoje would have to order an architect specializing in LIGHT to make a survey with a view to compensation.

I absolutely do not wish for a double rear extension in 29 Oval Road to be realized! I am away, but will be back next week.

Please DO NOT GIVE THIS AGENT Olutayo Ajoje, PLANNING PERMISSION to make two stories in the Rear.

I wish to get a hundred thousand pounds of compensation from 29 Oval Road if they go ahead, as the value of 27 Oval Road will go down big time. I also would need a PARTY WALL AGREEMENT.

I have a huge rear gutter repair, partly because of taking 29's water away and down from their roof, and have had water damage from their pipes before. —This is simply the last straw.

Please get in touch with me next week after Wednesday. (0)20 7485-6822. Does Camden Planning Division wish for more claustrophobia for their council tax payers?

Wishing you a Happy New Year,

Sincerely,
Primavera Boman

29 Oval Road - 2024/5777/P Application

Back Yard at 27 Oval Road with extension of 25 on left, & back yard of 29 on right.
