**Cc: Peter Bloxham**

**Subject: Objections One Museum Street**

**This is to second the submissions of Peter Bloxham and Andy Wuensche expressing concern about the severe and looming difficulties in the projected plans for servicing, delivery, and transport within the Selkirk building site - especially, as Wuensche has noted, 'nearly all ground floor space is devoted to rentable usage'. As Grape Street residents who will be directly affected by the inadequacies of these plans, we wish to object in the strongest possible way to their impracticality. Given the massive disruption of the project as a whole, it is unthinkable that so little thought has been given to these lengthy logistical problems.**

**Yours**

**Marilyn Bush**
