Dear Daren

This proposal is frankly an ugly monstrosity that does not appear to even attempt to justify itself with regard to improving the natural or lived environment of our borough.

In this era of mitigation against climate change and widespread recognition that local communities need bolstering and improving, this oversized concrete tower is unsightly, emission unfriendly and does absolutely nothing to enhance the natural world.

I strongly object to the lack of social or community vision this proposal embodies. Camden is a great local authority. It should expect much much better from its development partners.

Best wishes

Sarah Marriott
