I note I have missed the brief window to submit objections on line.

However I wish to register my strongest objection to this scheme that will blight the neighbourhood.

What is it with Camden and tower blocks. ? Why do you persist in blighting the borough with these monoliths?

What Camden needs is low rise social housing not grandiose vanity schemes that only foreign investors can afford.

And you always ignore the infrastructure needs when you press ahead with these over-developments .

Why did you encourage the developer to trash the initial low rise plan and give tacit agreement to this massive enlargement?
